

SIRT3 rabbit pAb

Cat No.: ES5340

For research use only

Overview

Product Name SIRT3 rabbit pAb

Host species Rabbit
Applications WB;ELISA
Species Cross-Reactivity Human;Mouse;

Recommended dilutions Western Blot: 1/500 - 1/2000. ELISA: 1/5000. Not

yet tested in other applications.

Immunogen The antiserum was produced against synthesized

peptide derived from human SIRT3. AA

range:350-399

Specificity SIRT3 Polyclonal Antibody detects endogenous

levels of SIRT3 protein.

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and

0.02% sodium azide.

Storage Store at -20°C. Avoid repeated freeze-thaw cycles.

Protein Name NAD-dependent protein deacetylase sirtuin-3

mitochondrial

Gene Name SIRT3

Cellular localization Mitochondrion matrix.

Purification The antibody was affinity-purified from rabbit

antiserum by affinity-chromatography using

epitope-specific immunogen.

Clonality Polyclonal
Concentration 1 mg/ml
Observed band 45kD
Human Gene ID 23410
Human Swiss-Prot Number Q9NTG7

Alternative Names SIRT3; SIR2L3; NAD-dependent protein deacetylase

sirtuin-3; mitochondrial; hSIRT3; Regulatory protein SIR2 homolog 3; SIR2-like protein 3

Background This gene encodes a member of the sirtuin family of

proteins, homologs to the yeast Sir2 protein.

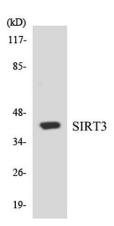

Members of the sirtuin family are characterized by a sirtuin core domain and grouped into four classes.

The functions of human sirtuins have not yet been determined; however, yeast sirtuin proteins are known to regulate epigenetic gene silencing and suppress recombination of rDNA. Studies suggest that the human sirtuins may function as intracellular regulatory proteins with mono-ADP-ribosyltransferase activity. The protein encoded by this gene is included in class I of the sirtuin family. Two alternatively spliced transcript variants that encode different proteins have been described for this gene. [provided by RefSeq, Jul 2008],
