

GST-Tag rabbit pAb

Cat No.: ES20729

For research use only

Overview

Product Name GST-Tag rabbit pAb

Host species Rabbit
Applications WB;ELISA

Species Cross-Reactivity Species independent

Recommended dilutions WB: 1:5000-10000 ELISA 1:5000-20000 **Immunogen** Recombinant Protein of GST-Tag

Specificity The antibody detects C-terminal, internal, and

N-terminal GST fusion proteins.

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and

0.02% sodium azide.

Storage Store at -20° C. Avoid repeated freeze-thaw cycles.

Protein Name Gene Name

Cellular localization

Purification The antibody was affinity-purified from rabbit

Polyclonal

antiserum by affinity-chromatography using

epitope-specific immunogen.

Clonality

Concentration
Observed band
Human Gene ID

Human Swiss-Prot Number

Alternative Names

Background GST (Glutathione S-Transferase) is a widely used

protein tag encoded by the Schistosoma japonicum. GST provides both an easily detectable tag and a simple purification process with little effect on the biological function of the protein of interest. Antibodies to GST are useful for checking protein

expression both in plaques and on Western blots as well as for immunoaffinity purification of proteins

expressed in cells.
