

Bovine Serum Albumin rabbit pAb

Cat No.:ES20812

For research use only

Overview

Product Name	Bovine Serum Albumin rabbit pAb
Host species	Rabbit
Applications	WB;ELISA
Species Cross-Reactivity	Cow
Recommended dilutions	WB: 1:2000-5000
Immunogen	Recombinant Protein of Bovine Serum Albumin
Specificity	The antibody detects endogenous BSA protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Storage	Store at -20°C. Avoid repeated freeze-thaw cycles.
Protein Name	
Gene Name	
Cellular localization	
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Clonality	Polyclonal
Concentration	
Observed band	66kD
Human Gene ID	
Human Swiss-Prot Number	
Alternative Names	YM3253
Background	Bovine serum albumin (BSA) is the main protein synthesized in the liver that constitutes over 50% of total serum proteins. BSA is often used as a protein standard and can also be used in cell culture media, forensics, and foodstuffs.

Western blot analysis of Bovine Serum Albumin, Rabbit pAb diluted at 1) 1:2000 2) 1:5000. Secondary antibody(catalog#:RS0002) was diluted at 1:20000
